A) Replacement of Front Turnsignal and Parking Light Bulb

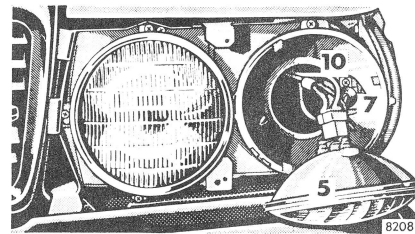

- 1) Unscrew screws (11) and remove lens (12).
- 2) Depress bulb (13), turn left and pull out.
- 3) For installation reverse above procedure.

NOTE: Make sure that the tab on the inside of the lens is on the bottom.

B) Replacement of Bulbs in Side Marker Light, Front

For replacement of the bulb in the side marker light (7), proceed as follows:

- 1) Unscrew screws (2) and remove cover (1) (Fig. 2).
- 2) Remove outside sealed beam unit (5) by unscrewing screws (8) (Fig. 3).
- 3) Remove screw (10) and detach lamp holder. Depress bulb and turn counter clockwise and pull out (Fig. 4)
- 4) For installation reverse above procedure.
